Applicants: Etsuo KORI

Serial No. TBA

Filed: Herewith (May 25, 2001)

For: REVIEW DATA RETRIEVAL SYSTEM

Commissioner of Patents  
Washington D.C. 20231  
Box New Patent Applications

**PRELIMINARY AMENDMENT**

Prior to examination on the merits, applicant requests entry of the following amendments.

**IN THE CLAIMS**

4. (Amended) The system according to claim 1 or 2, wherein

said server further comprises in the database the data of a field of the book, a field, an issue date, a publication date, a magazine code, a listing year, month, and page of the review or the introductory remark of the medium on which the review or the introductory remark of the book is listed to be output to the client through the network.

5. (Amended) The system according to claim 1 or 2, wherein

said server further comprises a summary of contents of the book to be output to the client through the network.

6. (Amended) The system according to claim 1 or 2 wherein

said server further comprises a graphic database containing the graphic data of the cover of the book to be output to the client through the network.

Please add the following new claims:

16. (New) The system according to claim 3, wherein

said server further comprises in the database the data of a field of the book, a field, an issue date, a publication date, a magazine code, a listing year, month, and page of the review or the introductory remark of the medium on which the review or the introductory remark of the book is listed to be output to the client through the network.

17. (New) The system according to claim 3, wherein

said server further comprises a summary of contents of the book to be output to the client through the network.

18. (New) The system according to claim 4, wherein

said server further comprises a summary of contents of the book to be output to the client through the network.

19. (New) The system according to claim 3 wherein

said server further comprises a graphic database containing the graphic data of the cover of the book to be output to the client through the network.

20. (New) The system according to claim 4 wherein

said server further comprises a graphic database containing the graphic data of the cover of the book to be output to the client through the network.

21. (New) The system according to claim 5 wherein

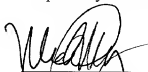

said server further comprises a graphic database containing the graphic data of the cover of the book to be output to the client through the network.

**REMARKS**

Entry of the above amendments is respectfully requested prior to examination on the merits.

Dated: May 25, 2001

Respectfully Submitted,
